Community Education

Pinnacle Pointe Behavioral HealthCare System is committed to provide updated information on topics of interest to our patients, referral sources and the community at large. Current behavioral health trends, family issues, medication, and other topics to assist in promoting overall community behavioral wellness are available.

We sponsor lunchtime learning opportunities complete with Continuing Education Credits at our hospital in West Little Rock. Please call the hospital to be included on our mailing list for these events or visit our website for upcoming events at www.pinnaclepointehospital.com.

The Jason Foundation at Pinnacle Pointe Behavioral HealthCare System

The Jason Foundation, with the partnership of Pinnacle Pointe Behavioral HealthCare System, is waging a battle against the Silent Epidemic of Youth Suicide. The core focus of this battle is prevention through education. The foundation offers a range of programs that include a school-based curriculum for grades 7-12, parent seminars, and teacher in-service education. (All materials are free of cost to the community).

TeleMedicine

- Global distance family therapy consistent with Tricare guidelines
- TeleMedicine services available for family convenience and continuity of care across geographic borders.

Mission Statement

"To consistently deliver a system of quality behavioral healthcare with integrity to children and adolescents in concert with parents, caregivers, guardians and community professionals."
